

TERAHERTZ WATER

Terahertz Waves

The terahertz spectral region (40GHz to 4THz or 7.5mm)
sits between microwaves and the far infrared

Three elements of life

Water

What are in our TAP WATER?

Many may not be aware, as they are still drinking tap water.

Water is the source of life

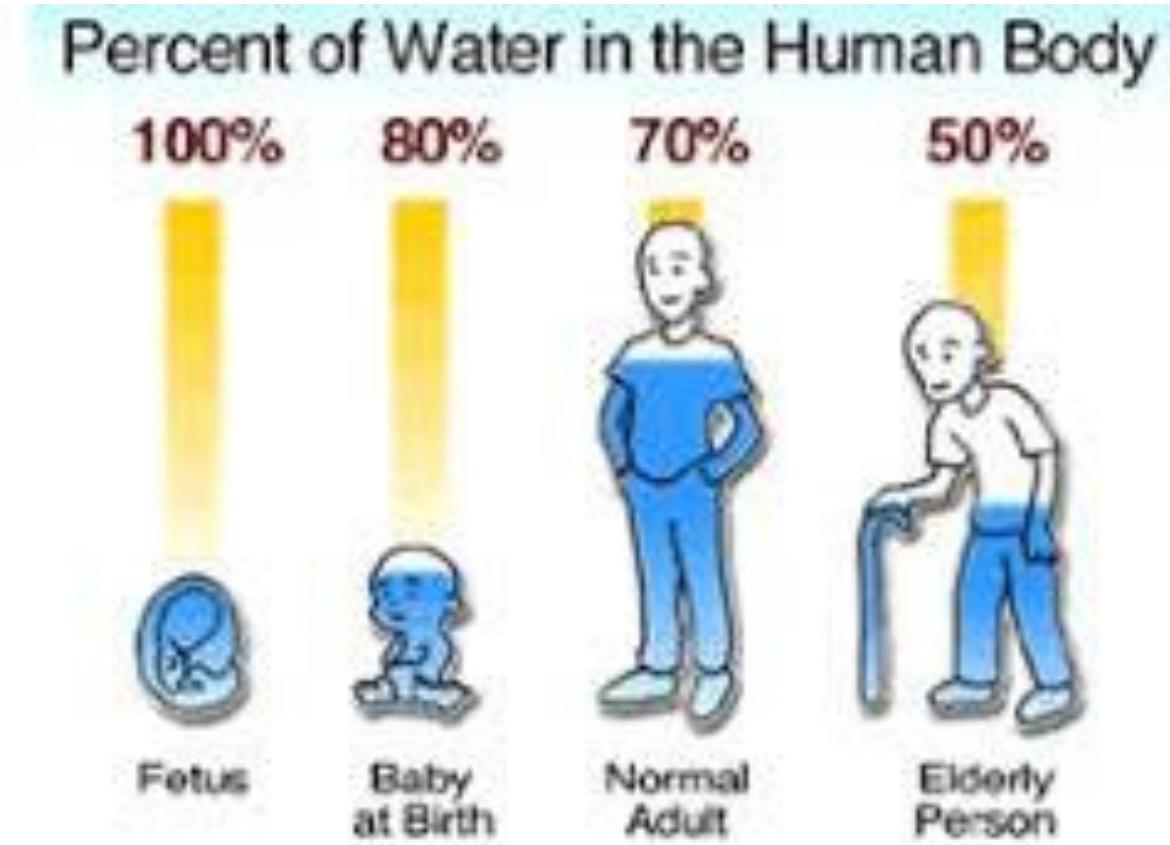

The Importance of Water——Functions of Water

- ★ Water is an important macronutrient
50% ~ 80% of human body composition
- ★ Water not only serves as a solvent for various substances, but also aid in cell metabolism, and also constitutes the external environment on which cells depend.
- ★ If the body loses more than 20% of water, life activities will not be functioning. In order to maintain normal life activities, the human body must ingest a certain amount of water every day to supplement the water lost through urine, sweat, breathing and feces.
- ★ Approximately 4% to 6% of the water in the adult body is renewed daily, and the daily renewal amount of water in the infant and young child can reach about 15%

Percentage of Water in Human

More than 70% of the human body is water, and 90% of human blood is water. The quality of water directly affects our health.

"Nobel Science · How Cells Drink Water"

The Nobel Prize in Chemistry 2003

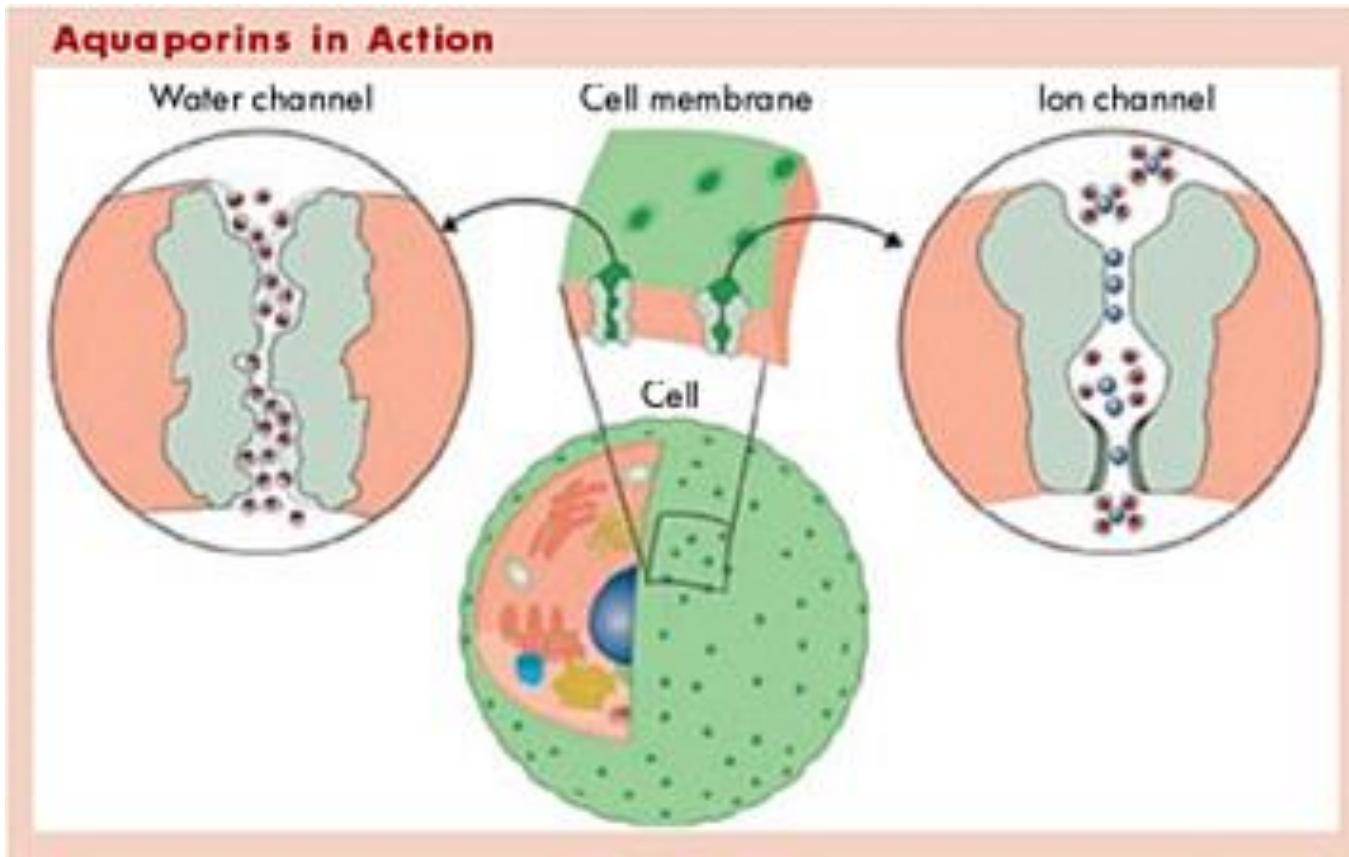

Peter Agre
Prize share: 1/2

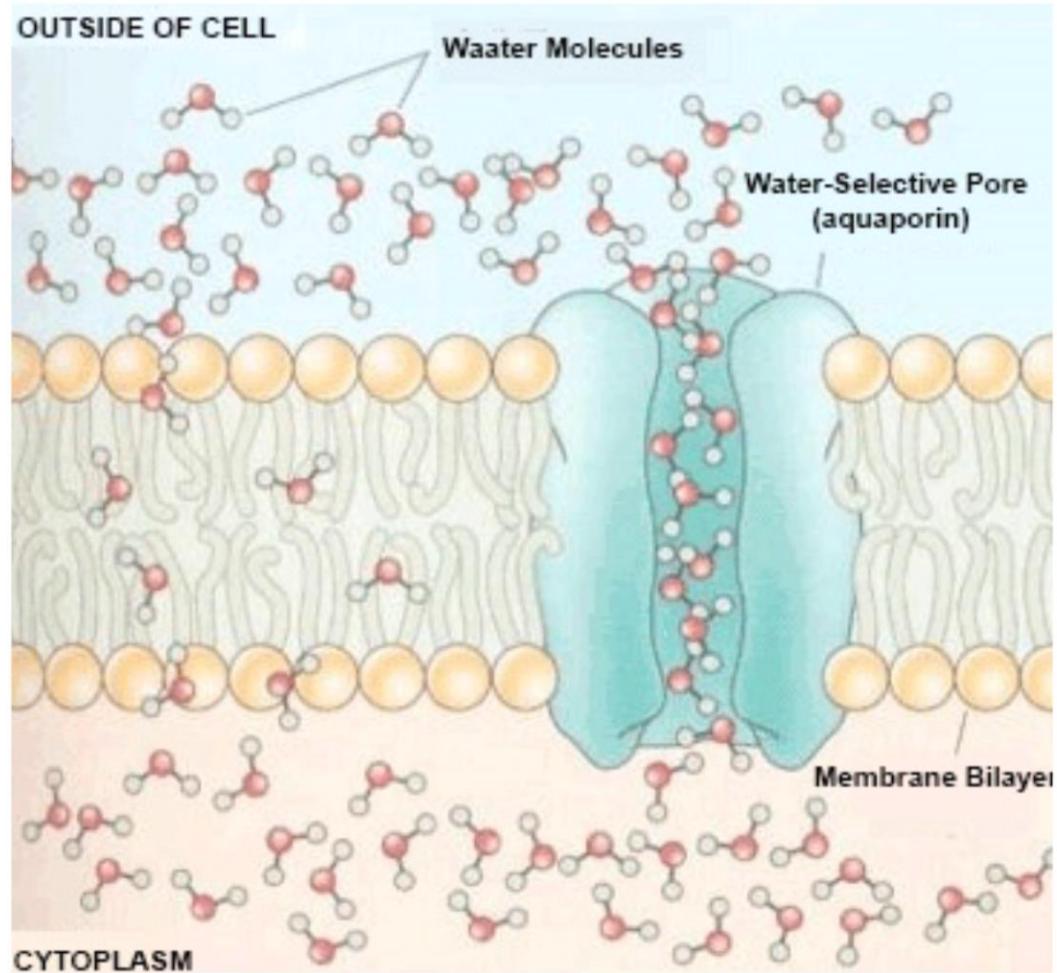

Roderick MacKinnon
Prize share: 1/2

The Nobel Prize 2003 in Chemistry rewards Peter Agre for the discovery of water channels and Roderick MacKinnon for structural and mechanistic studies of ion channels.

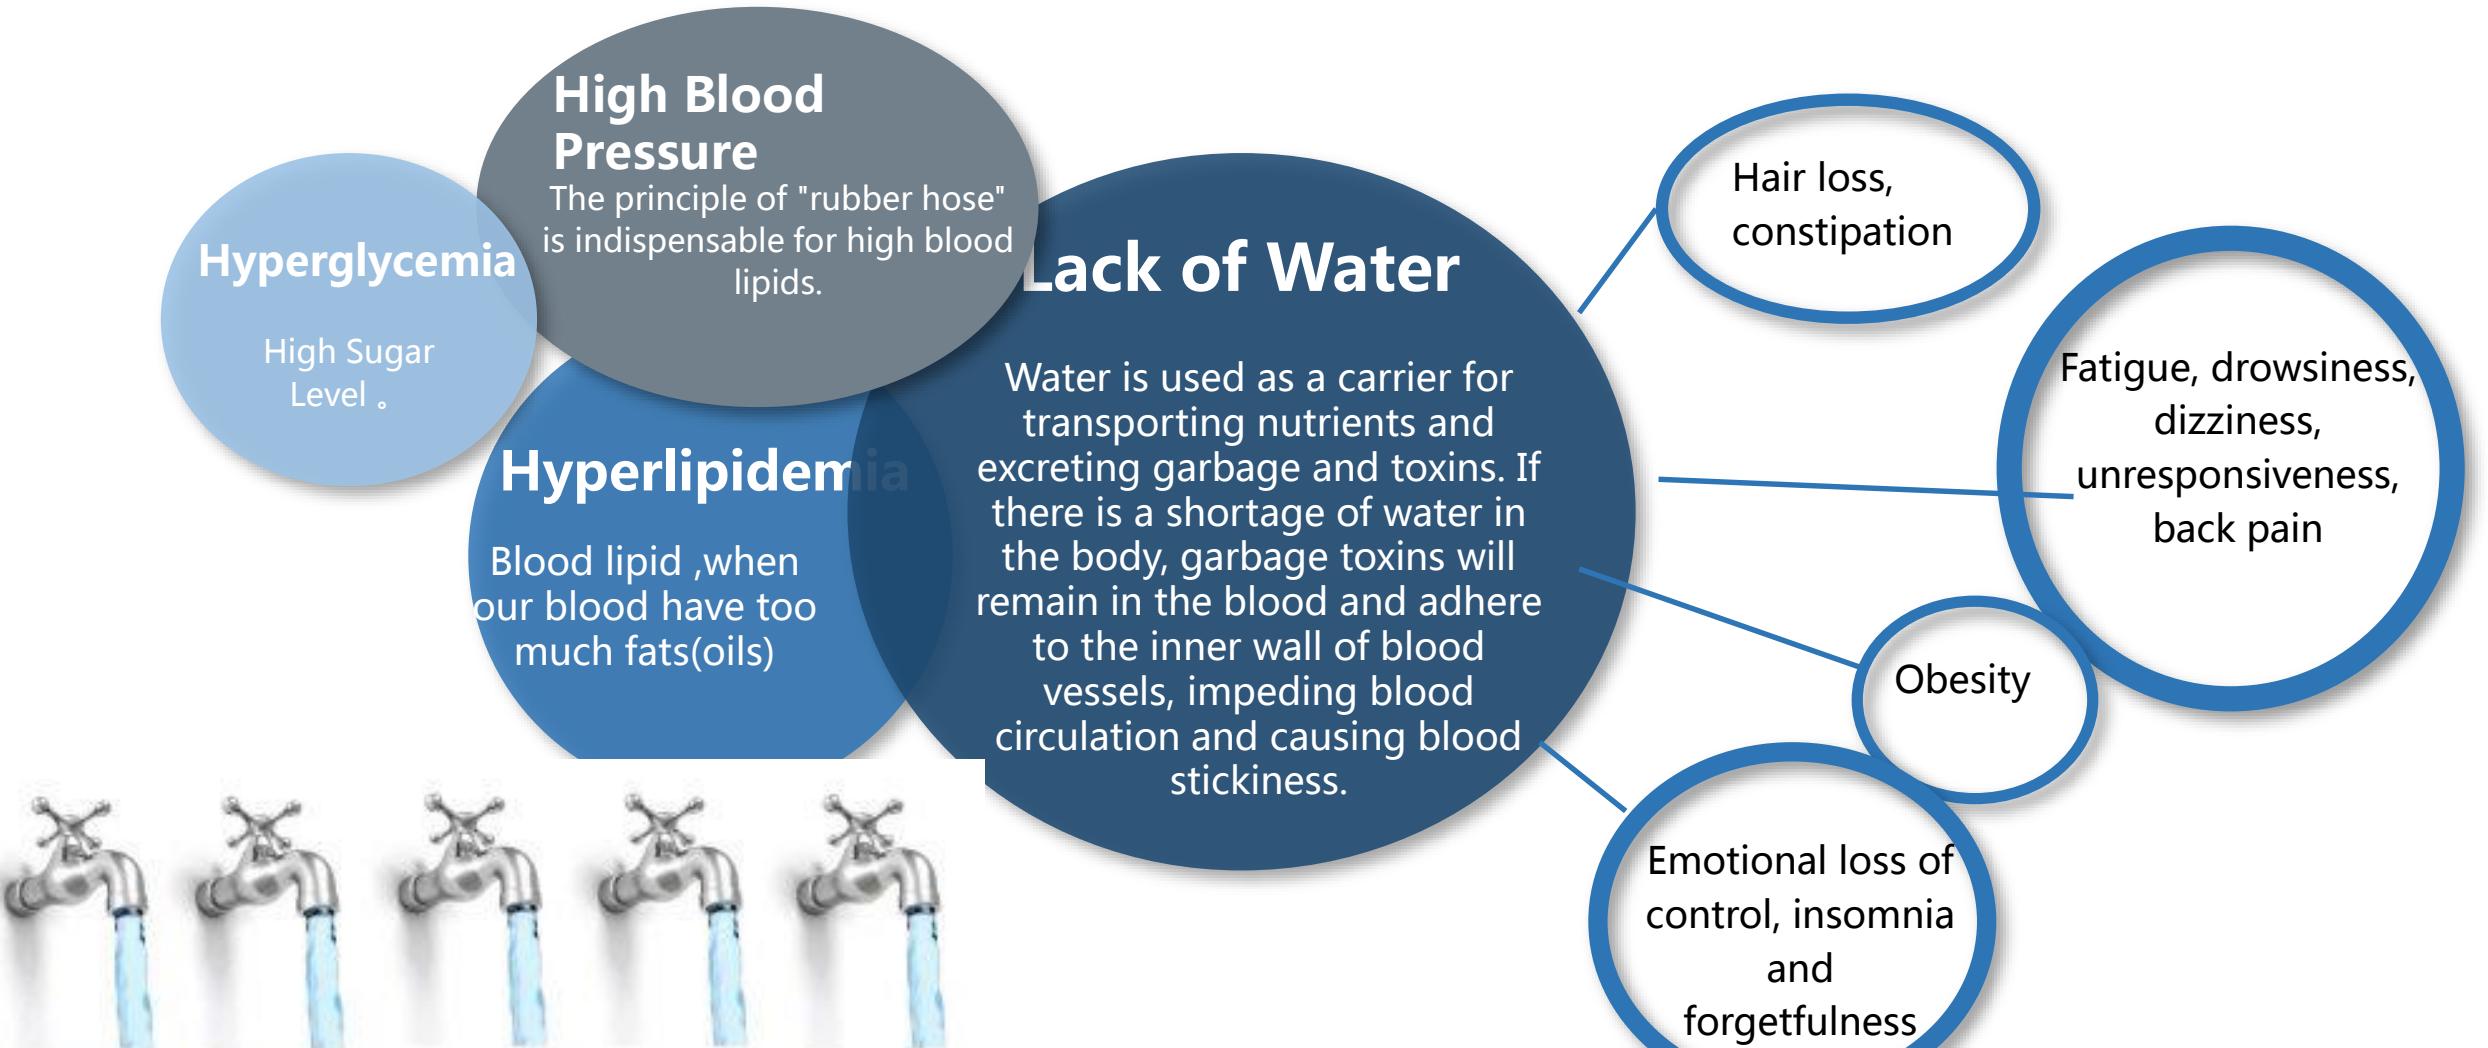

The cell membrane water channel is a very narrow channel. Not all water can enter smoothly and exit the cell through the cell membrane water channel. Under the electrostatic force of the protein, water molecules enter the cell one by one through the channel. In nature, water molecules do not exist individually but in the form of molecular clusters. Detecting the half-width of the nuclear magnetic resonance of oxygen 17 can determine the size of the molecular clusters of water, that is, the degree of degradation.

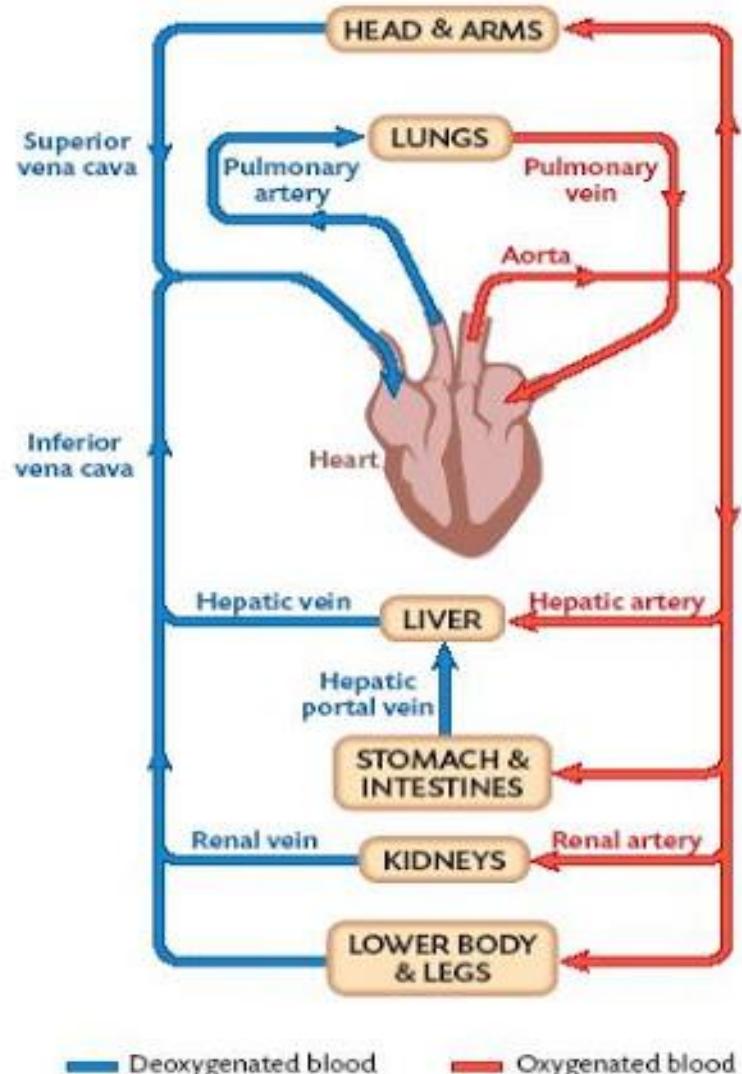

THz functional water is a single water molecule that makes it easier to pass through cell membrane water channels. (With kinetic energy, fast movement speed, high penetration force, strong dissolving power.)

After entering the human body, it constantly activates human cells, and can carry more nutrients, minerals and oxygen that are beneficial to the human body, enter every corner of the cell, so that human cells are filled with clean, vibrant and nutritious Liquid, which can greatly promote the growth and development of cells, and make human cells more active. This is the function of beauty and moisturizing. At the same time, the nutrients that cannot be completely absorbed by the cells and the fat, cholesterol and other substances stored in the body are fully dissolved and excreted, improving the body's detoxification and detoxification capabilities.

Problems When Lack of Water

Blood Circulatory System

BLOOD

Transport oxygen and nutrition
Metabolic junk toxins and dead cells
Regulate organ activity
Protection against harmful substances

HEART

Is the center of blood circulation
Distributes blood to the brain and various organs throughout the body
Ensure the normal conduct of life activities

Transportation

The smoother the blood flow, the less waste in the blood, the faster the metabolism, and the blood will not be sticky

What is Good Water and Healthy Water

Water that allows human cells to absorb quickly, accelerate metabolism and increase cell vitality is considered as good water.

So how to generate good water? In the 1980s, American scientists discovered a light "Terahertz wave" that is consistent with the frequency of vibration of human cells, which is a kind of light energy. It can resonate with human body cells, thereby activating the cells.

Scientists named it as : "The Wave of Life"

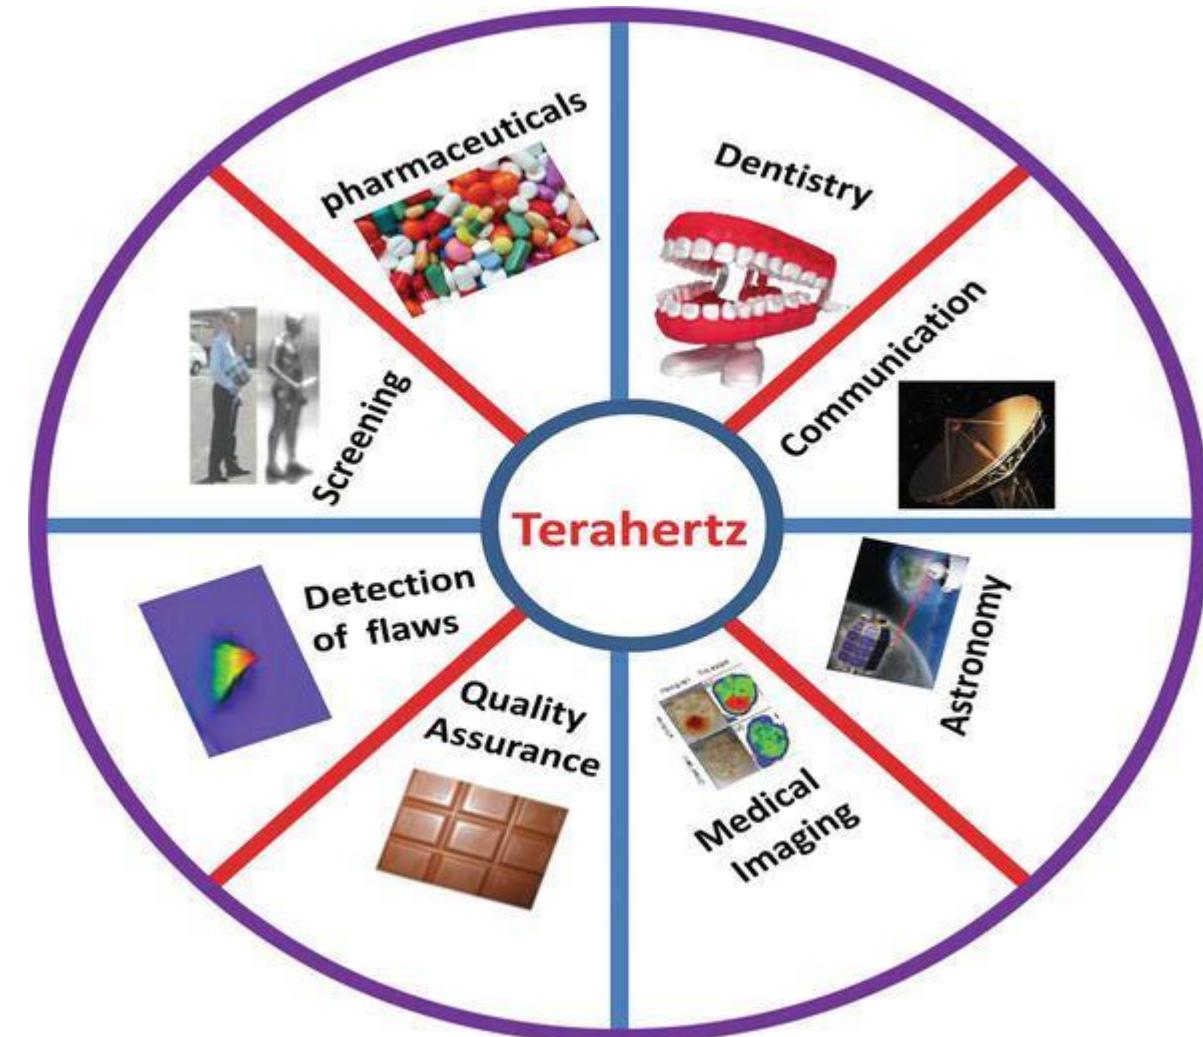

Tera Hertz (THz) is one of the wave frequency units. It is an invisible special electromagnetic wave.

In 2004, the US government named THz technology as "one of the top ten technologies that will change the future world".

In 2005, China ranked THz technology as "the first of the ten key strategic goals of the national pillar", and gave the nation's strength to conduct in-depth research and development.

Terahertz technology has been widely used in medical, aviation, drinking water and other social environment and life fields.

**LINEAR LINE UP WATER
MOLECULE**

The Effectiveness of Terahertz Healthy Functional water

Improve Metabolism

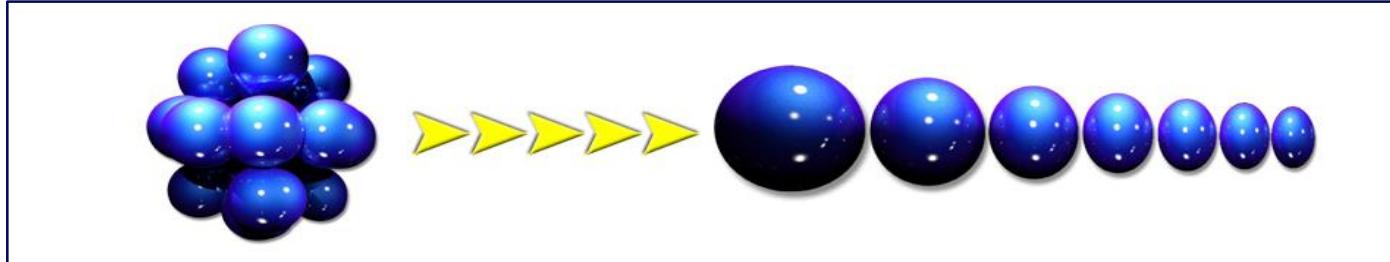

Breakdown of food and convert into energy for the body.
Excrete waste, toxins, heavy metals lactic acid, dead cells in the blood, excess nutrients, etc.

Improve Blood Viscosity

The linear water molecules that are compatible with the human body can directly enter the bloodstream, increase blood activity, and excrete blood waste, toxins and oils attached to the blood vessel wall, thereby significantly improving blood viscosity.

Single Linear Line Up

Ordinary polymeric

Leading technology creates
"structured water"

Generally, our daily drinking water is
usually unstructured.

The Terahertz healthy water uses the
Schumann generator to change the
polymerized water molecules into linear
water molecules.

Cells only drink the right water

The structural change provides cells with
better water supply and increases the cells
absorption rate.

Single Linear Line Up

Single linear line up

Terahertz linear arrangement of water molecules

Which formation is the easiest to walk into the door of this room?

Treat this room as our cells, is it easier for multiple people to hold together or is it easier for a single line order?

Everyone is not empty-handed when they go in, they are holding all kinds of nutrients, and when they come out, they will bring out the waste. In this way, each of our cells is clean and healthy at all times.

2 Lows

Low Resonance Frequency-**0.96Hz**

This frequency 0.96Hz happens to be between the q frequency received by the human brain wave α wave. When the human body is in the alpha wave state, it can just resonate with the Schumann wave between heaven and earth. There is an inexhaustible Schumann wave between heaven and earth. (The biological electric field of the human body). If it often resonates with Schumann waves, it means that it is often charging. In popular terms, it is "absorbing the essence of sun and moon(NATURE)."

Low Viscosity-**622 times lower than normal water**

The viscosity is reduced by 622 times, the taste is soft and smooth, and it enters the cells to increase the absorption rate of blood vessels and cells by 3 times. It rapidly dilutes blood lipids and significantly improves the blood circulation system.

Low viscosity-622 times lower than ordinary water

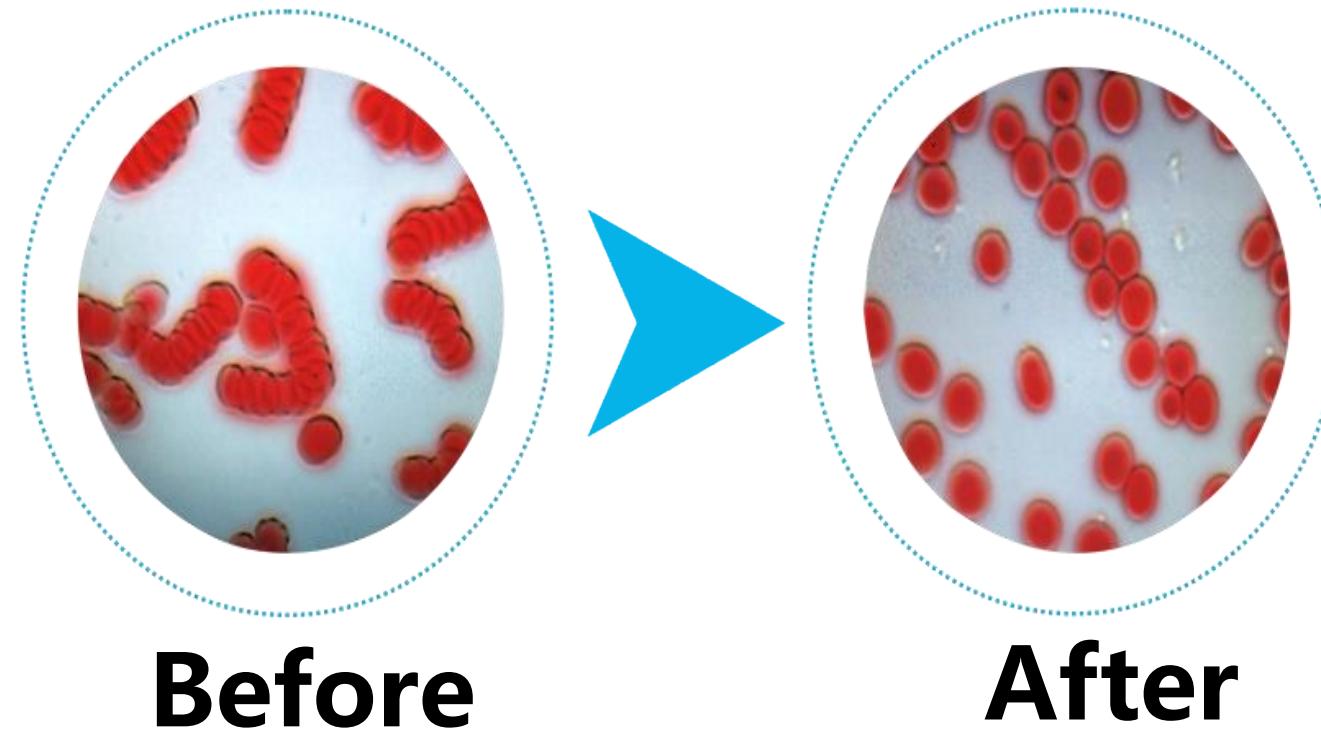

622 times lower viscosity The texture is soft and smooth, entering the cells, increasing the absorption rate of blood vessels and cells by 3 times, rapidly diluting blood lipids, and significantly improving the blood circulation system.

Benefits:

1. Improve microcirculation and promote cell health.
2. Enhance the body's metabolic function and restore the viscera function.
- 3, strong lipophilicity, easy to break down triglycerides and other neutral fats, reduce blood lipids and prevent arteriosclerosis.
4. Enhance the information exchange between cells and maintain the balance of nervous system and immune system with endocrine system.

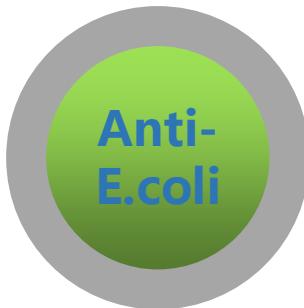

Improve Blood Viscosity

3As—Anti-Bacterial

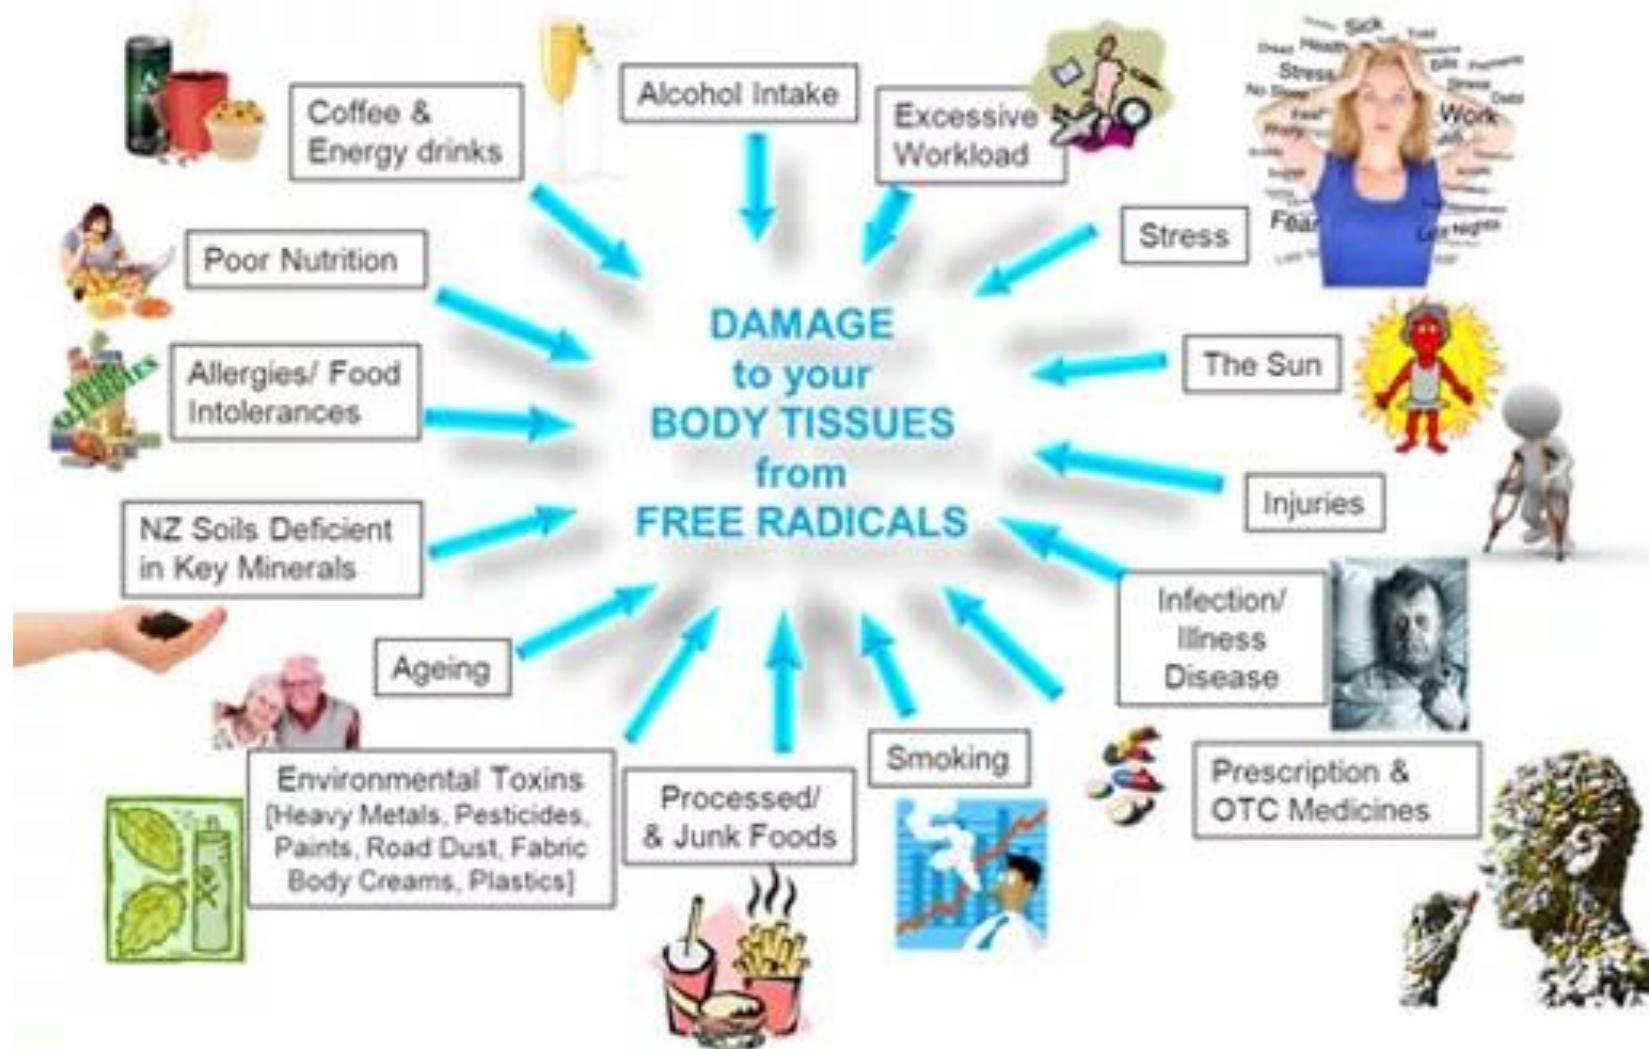

Escherichia coli is the most well-known bacterium in the intestines of humans and animals, mainly parasitic in the large intestine. Symptoms of a person infected with E. coli are stomach pain, vomiting, diarrhoea, and fever. Infections can be fatal, especially for children and the elderly.

Trichophyton rubrum is a dermatophytic fungus in the phylum Ascomycota. It is an exclusively clonal, anthropophilic saprotroph that colonizes the upper layers of dead skin, and is the most common cause of athlete's foot, fungal infection of nail, jock itch, and ringworm worldwide.

Trichopygton Rubrum

After testing, after 3 minutes of terahertz health water treatment, E. coli and Trichophyton rubrum are reduced by more than 90%

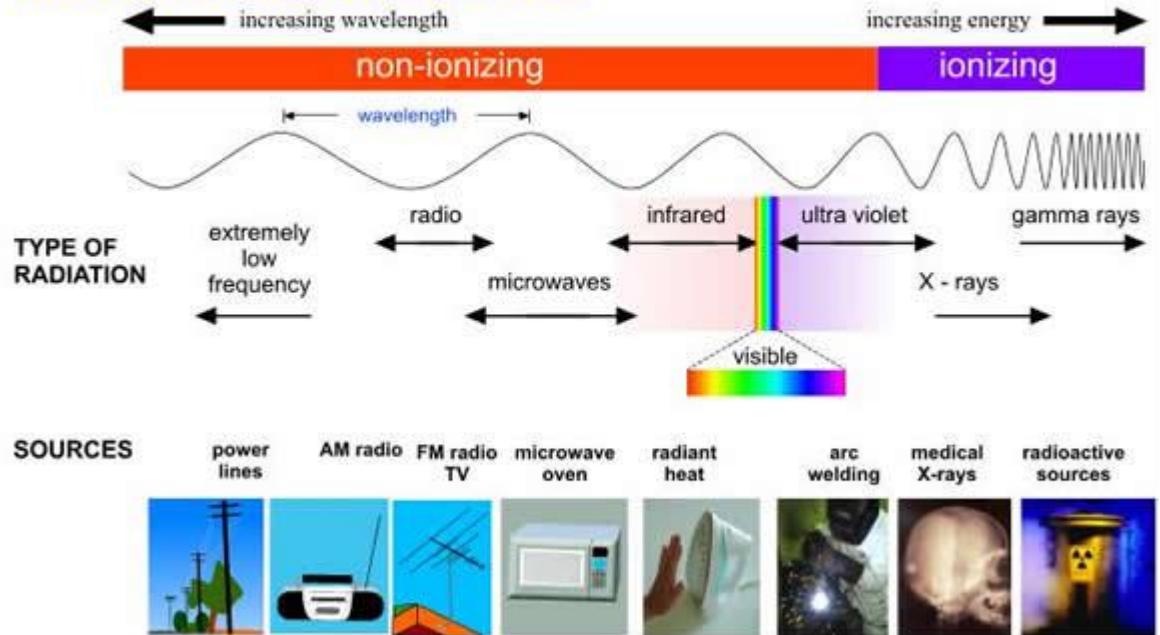

After 3 minutes of treatment with Terahertz healthy water device, the total anti-oxidation percentage of the water quality is 75%, and the anti-oxidation capacity shown 4 times improvement!

3As—Anti Radiation

THE ELECTROMAGNETIC SPECTRUM

It is generally believed that receiving too much radiation may cause symptoms such as fatigue, bleeding gums, hair loss, decreased libido, skin erythema, white blood cell count and other degrees of radiation sickness, increase the incidence of cancer, and even cause death.

Functions & Benefits

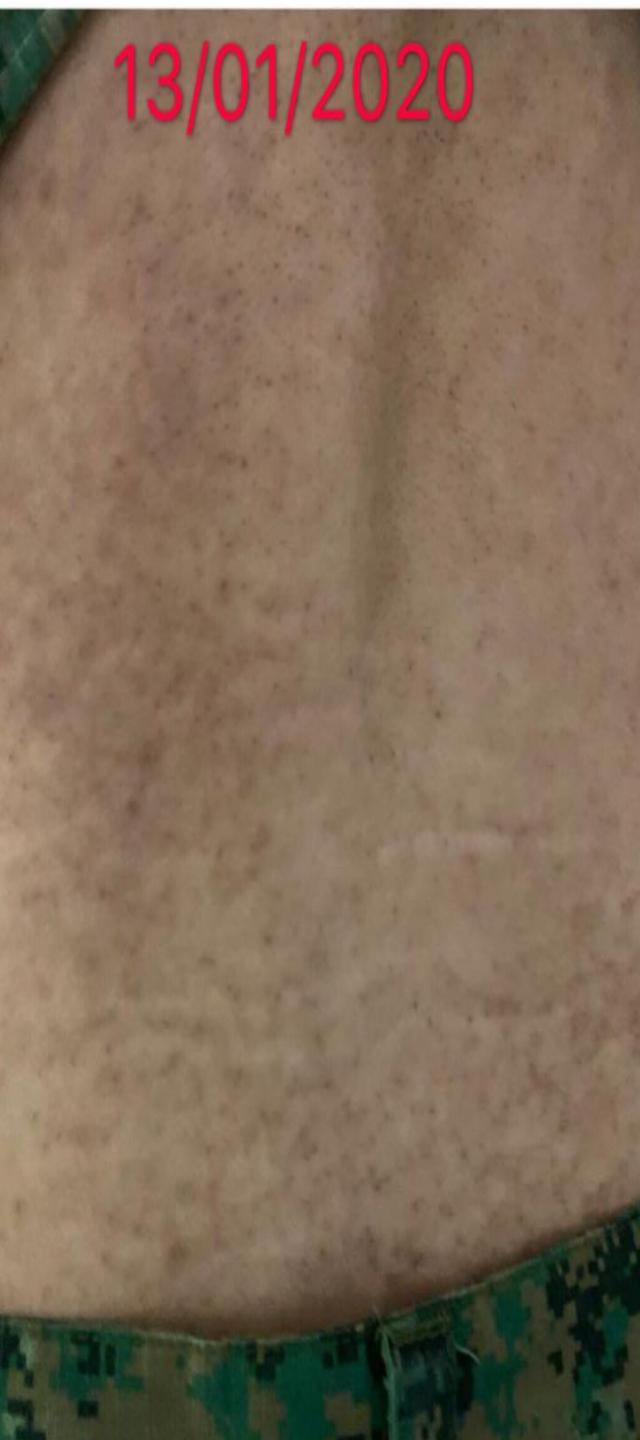

Drinking

1. Improve the health index of intestinal flora and effectively improve constipation.
2. Improve sleep quality and improve insomnia.
3. Speed up metabolism, improve blood viscosity
4. Better absorption of health products, nutrition products and drugs in the body

External Spray

1. Moisturize the skin, quickly hydrate, and improve fine lines;
2. Improve facial contour, increase firmness and improve skin elasticity;
3. It can be used to clean wounds and dermatitis and accelerate healing;
4. Reduce skin acne marks and scars, repair sensitive muscles,

真实
案例

大家好，我叫陈畅，来自于湖北荆州。我是去年八月份接触这一款水的，我喝水的时候是我腺癌三期C是中晚期，当时我复发和转移了。每个月去北京拿中药也没有用，也没有拦住我那个病情的恶化，我当时整夜整夜不能睡觉，全身关节痛，走路上厕所已经很困难了。当时我们单位的医生介绍我喝这款水，我不理解，我觉得就是普通的水，我家也有。第二天他劝我说你已经没有别的办法，为什么不试一下。当天我就把这个水拿回家试了。当天的下午，我把十斤水喝完了以后，觉得人特别轻松，特别是肾脏那一块儿，觉得像放气的皮球一样，轻松好一大截。第二天早上我睡到七点钟才醒，我已经有好几年每天每夜整夜睡不着觉。我觉得这款产品太好了，就连喝了一个星期，身上的肿就消了，我立马就去公司请了一台水仪回家。现在喝了11个月水了，我胸部转移的肿块消失了，我原来的人家小孩叫我奶奶，成本到现在叫阿姨了。不仅是捡到了一条命，也是更年轻，更有活力了。行动自如，能吃饭，能睡觉。生活能自理，已经非常高兴了。感谢这款产品。

开心分享：
这是我的房东，自从他把太赫兹健康仪请回家，就很认真的喝水喷水，在他身上发生了很大的变化。
原本他的脸上手臂上长了很多老年斑，因为喜欢钓鱼，脸晒的很黑，喝喷太赫兹健水3个月左右，脸上手臂上老年斑和太阳斑基本上不见啦，人也白净很多，人都年轻了十岁，大家都说他更帅了，现在血压也降下来，原本经常麻木的右腿也不麻木了。好开心呀，更开心的是他98岁的老妈妈为了让自己更健康长寿，也爱上了我们的好水，还要喷脸哦。本是满脸皱纹现在没那么明显，脸上变得有光泽和紧致啦。可惜当时没有帮她拍照。我们的太赫兹好水太好了，这位将近一百岁的老太太非常有智慧，知道喝上这好水会让自己身体健康。朋友们，太赫兹好水好不好，喝上你就知道。
